

33' DEFENDER CLASS

The featured 33' Defender is an extremely capable vessel. Powered by triple 275 HP 4-stroke Mercury Verado Engines, this craft is capable of 60+ MPH. The integrated power steering and fly-by-wire throttle controls creates ultra-responsive handling and greatly lowers crew fatigue. This package has quickly become one of the most popular platforms for Law Enforcement and Border Protection world wide. Contact the Sales Department at SAFE Boats for more details and pricing.
